GitHub: github.com/shakerii
Location: Tehran, Iran

Full-stack Software Engineer with 7+ years of experience building AI-driven applications, scalable platforms, and user-focused web solutions. Experienced in leading teams, designing architecture, and delivering production-grade systems with modern stacks.

Work Experience

Farbonyan - Frontend & AI Developer

Feb 2024 - Present

Developing AI-powered data analysis and reporting tools using LangChain and NextJS.
Built dashboards and visualizations enabling non-technical users to gain insights from company data.

Interactive 10 (Remote) - CTO & Software Engineer

Jun 2022 - Feb 2024

Led a distributed dev team, delivering SaaS platforms for interactive media clients.
Implemented CI/CD pipelines and scalable backend services, reducing release cycle by 70%.

Matap - CTO & Full-Stack Developer

Mar 2022 - Jun 2022

Designed architecture for B2B web platforms and implemented core backend services.

Freelance - Full-Stack Developer

2020 - 2022

Delivered custom web applications for clients using React, Node.js, and PHP/Laravel.

Raymon Co. - WordPress & ReactJS Developer

2019 - 2020

Tinext Co. - Laravel Developer

2018

Amirkabir IoT Lab - Research & Development

2016 - 2017

Projects

SABI

Developed an AI-powered reporting assistant that generates business insights from company data. Built conversational workflows, automated chart/report generation, and integrated database querying.

Tech: LangChain, LangGraph, NextJS, tRPC, Redis, Docker

FIS (Farbonyan Intelligent Sales)

Engineered a React-based B2B e-commerce platform for car parts sales, inventory, and shipment management. Improved user workflows and automated order handling, supporting hundreds of SKUs and multiple vendors.

Tech: ReactJS, React Table, React Query, REST APIs, Docker

Smart Catalog

Built an admin dashboard for companies to design interactive product catalogs with dynamic filters and exports. Enhanced usability with drag-and-drop components and real-time preview.

Tech: NextJS, tRPC, DND-kit, TailwindCSS, MySQL, Docker

BAAS Platform

Designed backend services for database management and API handling, including authentication, role-based access, and scalable microservice architecture.

Tech: ReactJS, Laravel, MySQL, Docker

Skills

Languages: TypeScript, JavaScript, Python, PHP, Go

Frameworks: NextJS, React, FastAPI, Laravel, NestJS

Libraries: Turborepo, React Table, React Query, DND-kit, tRPC, LangChain, LangGraph

Databases: MySQL, PostgreSQL, MongoDB, Prisma, Redis

Tools: Docker, RabbitMQ, MQTT

OS: Linux (Ubuntu), Windows

Education

B.Sc. Computer Engineering (Software), Amirkabir University of Technology

Math-Physics Diploma, Allame Helli 1 (Sampad)

Languages

Persian (Native), English (Fluent)
